## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. Claims 1-66 are allowed.
2. The following is an examiner's statement of reasons for allowance: Although the prior art of record teaches method steps for fabricating optoelectronic packages, which include filling the substrate windows with optical polymer materials, planarizing the surface of the polymer materials, patterning the waveguide, etc., the prior art of record fails to disclose or fairly suggest all the details steps, including patterning the waveguide material over the optical polymer material and the substrate to form an interconnection path and a mirror to reflect light from the optical device to the interconnection path, positioning the optical device within the window of the substrate active-side up and below a top substrate surface, etc. These limitations in conjunction with other limitations in the claims were not shown by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel St.Cyr whose telephone number is 571-272-2407. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G Lee can be reached on 571-272-2398. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
